GLOBAL

Portable Buildings, Inc.

Global Portable Buildings, Inc. manufactures rugged, easily transportable, multi-purpose, new buildings designed for a wide range of uses, in virtually any environment or location.

Basic Features

- Durable, heavy duty steel construction to ISO standards
- Large, 5mm-thick windows with screens, blinds, removable metal window shutters
- Fully finished rigid 2" insulated walls and ceilings
- Utility room with shelf
- Transportable by truck, rail, ship, helicopter or air cargo plane
- Requires no foundation; can withstand up to 100 MPH winds without anchoring, and Category 5 hurricane winds with anchoring
- Can also withstand tornadoes, earthquakes and other natural disasters

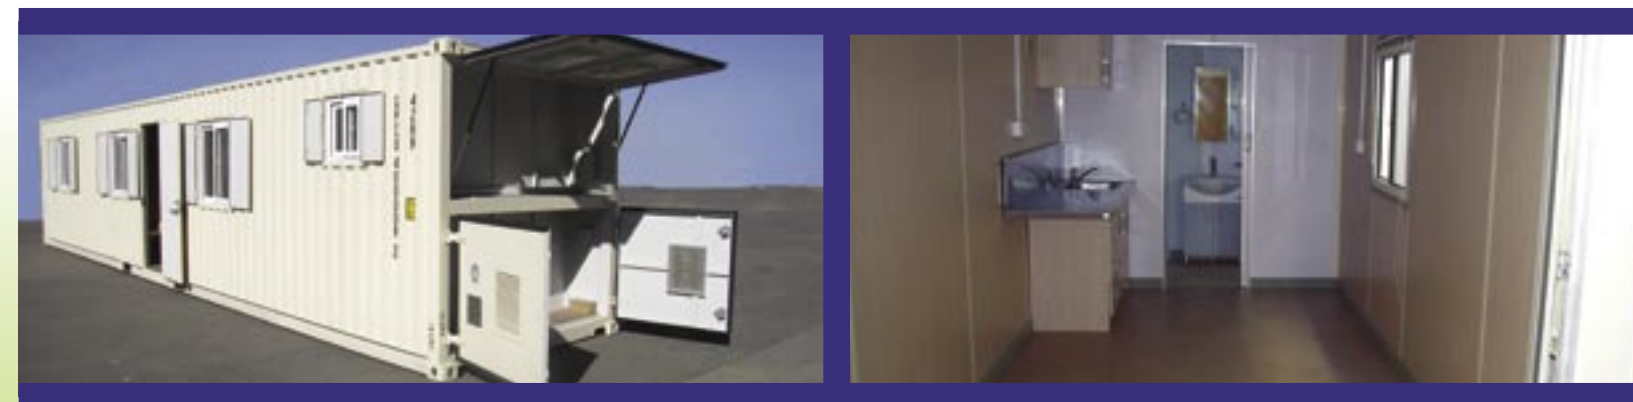

Electrical Features

- Complete 110v/220v electrical system with fluorescent light fixtures (3 per 20' and 6 per 40'), wall plug receptacles, etc.
- Extraction fan with on/off switch
- Telephone connection with standard modular hookup
